

Drilnet – Training courses; Technical assistance; Recruitment; Project management; Training centres set up and accreditation.

Company

Drilnet was created in 2000 by a group of professionals from the petroleum industry.

We worked as drilling supervisors, superintendents, project managers in such companies as Total, Schlumberger, ENI, Halliburton, Exxon, BHI, and BP at petroleum sites all over the world for many years.

Our collaborators have from 20 to 30 years of working experience in the domain of their competence.

Services

Project management, research and development

Company Drilnet realizes consultancy, audit and other expert knowledge-based services for the petroleum and service companies, as well as for all upstream activities, refining, HSE and logistics.

Our research and development department offers technical assistance and engineering for the oilfield from upstream to downstream.

Recruiting and Technical assistance

Drilnet provides petroleum companies and services companies with technical and administrative personnel. According to your needs, we can complete your team with some specialists, or provide a whole team of professionals to carry out operations on your site.

Training courses

Within our structure we evaluate engineers and technicians, develop training programs, and supply training courses on behalf of important international companies.

Training centres

Drilnet implements and sets up training centers, trains the future trainers and provides the following certifications: IWCF, STCW 95...

TECHNICAL ASSISTANCE

Drilnet provides major petroleum companies and services companies with all kinds of technical assistance and engineering services for the oilfield from upstream to downstream.

Contact us if you need experts' intervention in geology, geophysics, seismic, reservoir engineering, drilling, completion / tests, production, transport, refining and distribution.

According to your needs, Drilnet can complete your team with some specialists, or provide a whole team of professionals to carry out operations on your site.

These specialists can also evaluate, recruit and train local personnel to allow them to become autonomous.

We work in the following countries:

Algeria, Angola, Cameroon, Cuba, Egypt, France, Gabon, Georgia, Indonesia, Italy, Kazakhstan, Libya, Mauritania, Morocco, Nigeria, Peru, Qatar, Romania, Russia, Senegal, Spain, Syria, Tunisia, Turkey, Turkmenistan, United Arab Emirates, Venezuela, Yemen.

RECRUITMENT

Our company provides technical and management specialists for the petroleum industry companies. Our substantial resume database allows us to make available highly qualified personnel for our clients. Contact us to precise the profile of professional that you are looking for.

We are providing following qualifications:

MANAGEMENT TEAM:

Operations Manager, Drilling Superintendent, Drilling Supervisor, Drilling Engineer, Procurement Manager / Supervisor, Accounting Manager / Supervisor, Geologist, Well Site Geologist, Reservoir Engineer, Drilling Fluid Superintendent, Drilling Fluid Supervisor...

SERVICE COMPANIES:

Directional Driller, Mud Engineer, Stimulation and Cementing Operator, Tools and Testing Operator, Completion Operator, Coiled Tubing Operator / Supervisor, Power Tongue Operator...

DRILLING TEAM:

Rig manager / Tool Pusher, Driller, Assistant Driller, Derrick man, Chief Mechanic, Chief Electrician...

LOGISTICS TEAM:

Materials Manager / Supervisor, Logistic Supervisor / Crane Operator / Port Personnel

SAFETY TEAM:

Safety officer and safety manager / QHSE Supervisor, Superintendent, Engineer...

TRAINING COURSES

Training is the main activity of our company. Drilnet develops drilling training programs and trains engineers and technicians of international companies directly or through the intermediary of our clients such as "Ecole Nationale Supérieure des Pétroles et des Moteurs" (ENSP MFI), ENI Corporate University, ENI / KCO, "French Petroleum Institute" (IFP), Nexen, NexT, Pride Forasol training centre, Total.

Our instructors have been training the personnel of Adco, Gaz De France, Pride Forasol, Schlumberger, Sonatrach, Total Fina Elf.

Our training tenders concern all activities of oil industry: oil and gas project management, E&P, Surface Production, Refining, Safety, and Logistics. They can be in-house trainings or trainings within our clients' facilities.

We have also special programs for on-the-job trainings for drillers, drilling supervisors, superintendents and engineers.

We are proud to say that from July 2008 our company is setting up and developing a drilling supervisor/engineer training program through a joint venture with SPIE Oil & Gas Services dedicated to all future Total worldwide local drilling engineers.

You can choose the courses you need in our training catalogue or ask for developing customized training programs.

Drilnet's team can lead your staff's knowledge evaluation in order to adjust the training programs to your company needs.

We help also to put into operation or work with existing training centres and provide the certifications IWCF, STCW 95...

DRILNET TRAINING REFERENCES

- ▶▶ **SONATRACH** (Algeria, 1990-2005): Drilnet's members has taken part in recruitment and training of more than 300 engineers (Drilling Supervisors / Superintendents and Engineers) working for the drilling division.

- ▶▶ **IFP / ENSPMFI / PRIDE** (2000-2002): DRILNET assisted the company PRIDE in the development and the implementation of the training courses for drilling supervisors.

- ▶▶ **NExT Training Center – SCHLUMBERGER group** (2001-2002): we designed training courses illustrated with documents and slides and trained the engineers of **IPM** (Integrated Project Management).

- ▶▶ **PRIDE** (2000-2004): DRILNET designed and presented the training course in marine safety according to the International legislation (STCW95) adapted to the equipment and the personnel of the company. This course was approved by the French Maritime Ministry.

- ▶▶ **PRIDE / STAPEM** (2003): we devised and implemented two training courses: HLO (Helicopter Landing Officer) and HDA (Helideck Assistant).

- ▶▶ **PRIDE / TOTAL** (2004): DRILNET implemented the training courses for ENMM (Ecole Nationale De La Marine Marchande): DPO (Dynamic Positioning Operation) and CSO (Company Security Officer).

- ▶▶ **ENI CORPORATE UNIVERSITY (ECU)**, (2003-2004-2005):
 1. KCO project: design and presentation of several training courses in E&P.
 2. Iraq Company & NAOC: design of two courses: Reservoir Engineering and Evaluation of the Petroleum Potentials.

- ▶▶ **ENI / ECU** (2003-2004 / 2006): DRILNET provided Drilling fluids and cement training course for ENI engineers (2 x 16 weeks)

- ▶▶ **ADCO / GTSC / IPC** (Abu Dhabi, since 2005): we have provided basic and advanced training courses in E&P.

- ▶▶ **ENI KCO** (Kazakhstan, 2005 – 2006 – 2007):
 1. Reservoir Engineering & Production
 2. Drilling Technology
 3. Production & Well Testing

- ▶▶ **SONATRACH – Production Division** (Algeria, 2003-2004): DRILNET designed several training courses:
 1. Industrial technologies
 2. Electrical and Mechanical Maintenance
 3. Automatism
 4. Surface production / Refining

- ▶▶ **SINCOR**, (Venezuela, 2004-2005): we designed a training course in safety during the supervision of the stopping of the refining production unit.

▶▶ **TOTAL** (2002-2003, 2005-2007) :

1. GYRASOL (2002-2003): HSE training courses.
2. DAALIA (2005): HSE training courses.
3. Commissioning (2006)
4. Refresh courses in Mathematics, Physics & Hydrocarbons Chemistry (2007)

▶▶ **PLOIESTI UNIVERSITY** (FORADEX – ROMPETROL – PETROM – OMV, 2006): engineering for the creation of the well control training centre at the Ploesti University.

▶▶ **SCHLUMBERGER** (Melun, France, 2005 - 2006 - 2007- 2008): well control training courses (IWCF)

▶▶ **BPS** (France, 2004-2005): recruitment, initial training and “On-The-Job training” for Drillers and Assistant Drillers, Drilling course for Roughneck and Derrickman level.

▶▶ **HALLIBURTON** (Algeria, 2007-2008): drilling training courses

- Hole problems while drilling
- Fishing
- Coiled tubing technologies
- Tubular design (drill pipe, casing and tubing design)

▶▶ **ROMANIA - Joint venture with DIESEL** (2008): creation in progress of Fire Fighting & HSE Training Centre in Ploiesti.

- ▶▶ **ROMPETROM** (Romania, 2008): training project for the drilling rig team on Top Drive system (Theoretical and “On-The-Job training”).

- ▶▶ **ANPE / ASSEDIC** (France, October 2007): DRILNET provided the training course “Introduction to rotary drilling”.

- ▶▶ **SPIE Oil&Gas Services** (Yemen, 2008-2009): DRILNET designed training programs “Drilling Supervisor / Engineer” and implemented this 19-week course from “beginner” level to Drilling Supervisor / Engineer level for TOTAL and NEXEN.

- ▶▶ **GRUP SERVICII PETROLIERE** (Romania, 2009 – 2011): DRILNET is setting up the entire training centre to provide fire fighting, IWCF, maritime safety trainings.

- ▶▶ **STREAM OIL & GAS Ltd.** (2007): DRILNET provided training course “Introduction to Rotary Drilling and Coiled Tubing” in Tirana, Albany.

TRAINING CENTERS

Drilnet can help in setting up and accreditation of training centres.

We can put into operation training centres and provide the following certifications: IWCF, STCW 95.

Also, we can work with existing training centres to adjust their certifications to European or international norms.

Drilnet helps its clients in all steps of training centre set up:

- Audit, needs evaluation;
- Training programs design;
- Training centre practice facilities design
- Courses design to the real needs of the customers and the local or international legislation;
- Courses delivery and evaluation and trainees certification;
- Trainers' recruitment and "train the trainers" programs realisation;
- Quality management: Training and evaluation of the trainers;
- Training centre management: Training centre administrative management. Staff recruitment and on the job training.

Currently, we are setting up the Training Centre for Drilling and HSE in Constanta, Romania on behalf of GRUP SERVICII PETROLIERE.

Among the courses offered:

- Well Control courses with IWCF accreditation;
- Fire Fighting courses with international accreditation;
- Maritime safety and security training;
- Helicopter training.

TRAINING CENTERS WE WORKED FOR

Client	Project
Algerian University of Boumerdes	<p style="text-align: center;">For the training centre setup:</p> <ul style="list-style-type: none"> - Purchase and installation of IWCF simulator
ENI – Eni Corporate University (ECU)	<ul style="list-style-type: none"> - Setting up the fluid laboratory in the training centre - Training programs design - Courses design - Courses delivery & evaluation
GSP Romania	<p style="text-align: center;">Setting up of the training centre:</p> <ul style="list-style-type: none"> - Needs evaluation - Training programs design - Courses design - Courses delivery & evaluation - Trainers recruitment - Training & evaluation of the trainers - Training centre administrative management - Training centre certification IWCF and STCW 95
Onshore Environment & Marine Offshore Training Centre (France, Romania)	<p>Setting in accordance with the international / local standards of several training courses: sea survival, fire fighting, medical first aid...</p> <p>Set up and Upgrade the Training Centre according to International approvals.</p>
SCHLUMBERGER (France)	<p style="text-align: center;">Setting up of IWCF training centre:</p> <ul style="list-style-type: none"> - Working out training courses in well control training (IWCF) - Courses delivery
